

What's Happening in STEM: *A Discussion with STEM Education Stakeholders*

Wednesday, July 17th 12pm -1:30pm
Rayburn B-338
Lunch & Refreshments Will be Provided

~
Sponsored by: The American Chemical Society, National Science Teachers Association, STEM Education Coalition, Battelle, Entertainment Industries Council, Hands on Science Partnership and American Society of Mechanical Engineers.

In conjunction with: the U.S. House of Representatives STEM Education Caucus

Join us for a comprehensive discussion on STEM education from an industry and government perspective. Panelists will present current STEM-related issues that face our workforce, executive and congressional blueprints for education reform and funding in the 113th Congress, as well as STEM education related policies debated in the immigration bill.

~
Introduction: Lauren Posey, Manager of Government Affairs, American Chemical Society
Moderated by: James Brown, Executive Director of the STEM Education Coalition

Panelists:

Allyson Knox, Director of Education Policy and Programs, Microsoft
Camsie McAdams, Senior Advisor on STEM Education, Department of Education
Rosemary Lahasky, Majority Professional Staff Member, House Committee on Education and Workforce.

Panelists Subject to Change
