## **MEET THE ALL NEW BERYLLINE F2A HYBRID SCOOTER**

This all new hybrid scooter is a perfect fit for recreational or urban personal transportation. The Berylline F2A scooter is engineered for comfort, stability, and economy wherever you want to go. It features a fuel injection 150cc engine/2KW AC motor with a regenerative braking system, removable battery and dual front disc brake. The touring model also features a dual speaker stereo link to a dash-mounted smart phone support system, windshield and removable rear storage trunk.
